## Annual Review of Action Taken Report of 2022-23:

The Cell is looking forward for financial support from Governing Body for future endeavours like arrangements of guidance for competitive examinations, publications of annual newsletter, maintenance of minority students register, regular survey of the socio-economic vulnerabilities of concerned students, regular workshops for skill and personality development of minority students etc.

The cell is very much aware about the limitations of the subcommittee and the increasing challenges of marginal as well as minority students in post-COVID period. We expect more coordination with other institutions as well as collaborations with government organizations for holistic development of this section of the College.

Observations of National Minority Rights Day to encourage the entire section of our minority students to inculcate academic and extensional activities with confidence and resilience. It serves as the reminder of the commitment to protecting the rights of religious, ethnic, racial and linguistic minorities of our surroundings.
