

### **Student Enrichment Programme**

Raidighi College regularly conducts the **Annual Sports and Cultural Activities/Competitions**. Several of our students participate in **district and state level competitions**. Other than the Annual programmes, College also conduct **Gender sensitization programmes**; several **awareness programmes** related to **vector-borne diseases, pregnancy associated health issues, peace rallies, child-trafficking, suicidal tendencies, mental depression** related issues, **right of democracy**, create an ethos in the surrounding localities via different organized lectures/seminars, sports competition, and **NSS activities** in our college. Students participate with full enthusiasm in each of these programmes as cocurricular and extracurricular activities of the college.

Active student participation and independent presentation have been initiated in programs like **Sundarban Mukti Exhibition, World Heart Day, World Diabetes day, National Nutrition week, International Rabies Day**, various Community Awareness Programmes. This practice is helping these rural students overcome their shyness and fear of expressing themselves and promoting their communication and public-speaking skill. This will ultimately help them to face the competitive job market. The primary goal of the college is to help these needy but enthusiastic students carve out a stable career, good enough to support their family.
